PSG Institute of Technology and Applied Research celebrated its 3rd Annual Day, DAKSHA: 2017 on 8.4.2017. The vice-principal Dr. G. Chandramohan welcomed the chief guest Dr. P. Selvaraj, Technology Director Aeronautical Development Agency, Bangalore. The chief guest congratulated the faculty members and students of the college for securing the first rank in each of the five successive semester examinations conducted by Anna University, right from the inception in June 2014. He also informed the audience about the excellent research facilities available in public sector organisations, such as Aeronautical Development Agency. The students very much appreciated the speech of Dr. Selvaraj which was on “The Role of Computers in Next Generation Industrial Era”

Principal Dr. P. V. Mohanram presented annual report on all the activities of the college for the academic year 2016-2017. He highlighted the achievements of faculty members in the publication of research papers, and the awards won by students in pan India competitions such as Smart India Hackathon 2017, Electric Kart Vehicle and Electric Formula Race Car.

More than 150 awards were presented to students for academic achievements, selfless service under NSS, YRC and other associations. In the end, as part of cultural programme, students entertained the audience with Carnatic music, light music and dances. The program ended with National Anthem.
